Dear Mr Gosse

I write to congratulate you and Australian Innovative Systems for recently receiving a Highly Commended in the Business Innovation category at the 2012 Brisbane Lord Mayor's Business Awards on Wednesday 31 October.

I believe there were numerous nominations this year, and you should be proud of the fact that you were able to come away with such an honour.

I understand from Assistant Minister Ian Walker, who attended the awards on my behalf, that Australian Innovative Systems was also selected as a finalist for the Australian Industrial Product of the year at the 2012 Manufacturer's Endeavour Awards. Well done! I look forward to watching Australian Innovative Systems move from strength to strength in the future.

Yours sincerely

CAMPBELL NEWMAN
